

Fumite™

OPP

BACTERICIDAL, FUNGICIDAL AND VIRUCIDAL DRY DISINFECTANT

PRODUCT DESCRIPTION:

FUMITE™ OPP is a ready to use aerial and surface disinfectant smoke generator effective against bacteria, moulds, yeast and viruses

UFI: 4M60-U0UE-W00R-A223

COMPOSITION:

Contains 2-phenylphenol (30%)

PRODUCT BENEFITS:

- Proven efficacy against major pathogens
- Quick, easy-to-use application
- Pre-dosed tins with uniform dispersion
- Ready-to-use – no mixing or equipment required
- Disinfects surfaces without requiring subsequent rinsing
- Safe for operators with limited exposure
- Reaches inaccessible areas for a thorough deep clean treatment
- Lower quantities of biocide are required than to spray the same area
- Dry disinfectant – no corrosion risk

AREA OF USE: Production and storage areas; domestic, commercial and medical premises; poultry housing

TREATMENT: Treatment not to be delivered in the presence of people, food, livestock and poultry.

FREQUENCY: To be used as final dry disinfection

DOSAGE: 300 mg / m³

INSTRUCTIONS FOR USE:

Before: 1. Apply treatment in pre-cleaned areas 2. Clear people, plants, animals including fish, flammable goods and packaged food from the area to be treated 3. Seal area to be treated as effectively as possible. Close all doors and windows.

In use: 1. Take the required number of smoke generators and shake lightly to loosen powder. 2. Place each generator on a fireproof base (but NOT in a bucket or other enclosed space). When a number of generators

are being used, space them throughout the area to be treated and prepare all for ignition before lighting the first. 3. Tear off can lid, remove igniters and internal label. 4. Light the igniter and once smoking drop through centre hole into generator. 5. Light smoke generators in sequence starting with the furthest from an identified exit. 6. Leave for not less than four hours or two hours per 1.5m ceiling height.

After: Open windows and doors and ventilate for 30-60 minutes before entering the premises.

PRECAUTIONS DURING USE:

- The generators will remain hot for a period of time after use.
- Ventilation is required for 30-60 minutes to re-occupation by people/ livestock/poultry.

SAFETY:

FUMITE™ OPP is classified in accordance to Regulation (EC) No 1272/2008:

Hazard Statements

- H315 Causes skin irritation.
 H319 Causes serious eye irritation.
 H335 May cause respiratory irritation.
 H410 Very Toxic to aquatic life with long lasting effects.

Safety Information:

- Wash skin thoroughly after handling.
- Wear protective gloves/eye protection.
- Avoid breathing dust/smoke.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If eye irritation persists: Get medical advice/attention.
- This container and its contents must be disposed of in accordance with local authority regulations.

PHYSICAL-CHEMICAL PROPERTIES:

Colour: Off-white

Physical State: Powder in a metallic tin

STORAGE AND CONSERVATION:

Expiry date: 2 years from date of manufacture.

Store in a dry and safe place. Keep away from all sources of ignition.

APPLICATION COVERAGE:

- 1 generator of 20 g covers up to 40 m³
- 1 generator of 30 g covers up to 60 m³
- 1 generator of 60 g covers up to 120 m³
- 1 generator of 100 g covers up to 200 m³
- 1 generator of 200 g covers up to 400 m³
- 1 generator of 400 g covers up to 800 m³
- 1 generator of 500 g covers up to 1000 m³
- 1 generator of 1000 g covers up to 2000 m³
