

Hand Sanitiser

An ready-to-use alcohol-free, colourless and odourless hand sanitiser for the food manufacturing industry

Code: BW19 (MSDS Ref)
Size: 800ml Sachet, 5L, 25L

Advantages:

- Suitable for use in industrial, domestic and institutional facilities.
- Generates a foam if used with foam pump. This saves on liquid usage.

Methods of Application:

Apply to dry hands. Massage-in well, especially between fingers and nails. Leave to dry. Do not rinse with water.

Physical Properties:

pH : 5-7

Active Ingredients:

Polyaminopropyl Biguanide Hydrochloride, Didecylidimonium Chloride, Benzalkonium Chloride, Active Ingredients <1%

Tested:

This formulation has successfully passed European Standards EN1276 against bacteria and EN 14476 against viruses, including Corona Virus. Our hand sanitiser is gentle on your skin and can be used by children.

Toxicology and First Aid:

Keep away from eyes and inflamed skin.

Contains Polyhexamethylenebiguanide, which may produce an allergic reaction.

This chemical is not intended for internal use (ingestion) and should be stored away from children and foodstuffs. If swallowed, drink copious amounts of water to induce vomiting and seek medical attention.

Contact of the undiluted chemical disinfectant and for its fumes with skin and eyes should be avoided. Avoid eye contact. Rinse with clean water and seek medical attention.

Storage:

Store upright, away from heat, direct sunlight and out of the reach of children.

The recommendations herein are based on laboratory tests and in field use experiments. To the best of our knowledge these are accurate and since conditions of actual use are beyond our control, all recommendations are made without any warranty whatsoever.
