

ABALEX INSECT GEL

A READY TO USE insecticidal gel-type bait for the control of cockroaches and crickets in public hygiene practice.

Abalex Insect Gel combines two modes-of action to kill German Cockroaches, American Cockroaches and house crickets where they hide and prevent future reinfestation.

- Kills German and American Cockroaches where they hide.
- Effective on both averse and non-averse German and American Cockroach populations.
- Active ingredients: Abamectin B1 (avermectin) & Pyriproxyfen (juvenile hormone mimic).
- For use in commercial, industrial and residential areas.

AREAS OF USE

Kitchens
Restaurants
Food Manufactures
Warehouses and Shops
Public Buildings
Industrial premises
Non-food areas

TARGET INSECTS

German & American Cockroaches
House Crickets

ABALEX INSECT GEL

METHOD OF APPLICATION

- Spot treatments
- Crack and crevice treatments

BEST PRACTICES WHEN USING ABALEX INSECT GEL

Use Abalex Insect Gel as part of an IPM program

Use Abalex Insect Gel as part of an Integrated Pest Management (IPM) program. Rotation of Abalex Insect Gel with other cockroach baits is recommended over the course of the year to delay the development of additional forms of behavioural resistance.

Bait placement

For best results focus bait placements in or near cracks and crevices and near German & American Cockroach harborages.

Do not apply Abalex Insect Gel

- To areas that have been recently sprayed with insecticide to prevent the bait from becoming repellent - cross-contamination of the bait can negatively impact its palatability.
- To greasy or dusty surfaces - the bait will not adhere as well as it will to clean surfaces.
- In locations that are routinely washed - the bait will be removed by washing.
- In locations where routine-cleaning operations may transfer diluted bait to food or food preparation surfaces.
- In or on electrical equipment where a possibility of shock hazard exists.

Avoid placement on fabrics

Avoid placing Abalex Insect Gel on textiles, fabrics or carpets since it may stain some absorbent materials.

PRODUCT SPECIFICATIONS

Packaging	4 tubes per box
Registration Number	Reg. No. L11322 Act No. 36 of 1947
Food Handling	For use in food and non-food areas
Appearance	Gel, Transparent
Odour	Characteristic odour
Active Ingredients	Abamectin B1 & Pyriproxyfen
Mode of Action	Chloride channel activator, Juvenile hormone mimic
Mix or Dilute in	Apply alone - do not use residual insecticide sprays on or near Abalex Insect Gel.
Activity	Ingestion
