NATURAL ODOUR BAG 600G LABEL

Date created: 11/12/2025

Revision date: 11/12/2025

The **Natural Odour Bag (600g)** is a safe, eco-friendly solution that absorbs and eliminates unpleasant smells, not just masks them. It works like a sponge, soaking up odours from dead animals, mildew, urine, faeces, smoke, rotten food, litter boxes, wardrobes, and more.

Completely non-toxic, biodegradable, and safe for pets and children, this natural deodoriser keeps your space fresh and clean without harsh chemicals or artificial fragrances. Each bag covers approximately 10m², making it perfect for use in homes, offices, garages, vehicles, and storage areas.

Once the sealed bag is opened the product lasts approximately three months.

Directors: W.L. Hillebrand & R.M.R. Hillebrand
