DEFENDER CATCHER UNIT 30W

APPLICATIONS

Shops
Kitchens
Bakeries
Take-aways
Supermarkets
Warehouses

Combining high performance with versatility, Defender Catcher Unit 30 provides a choice of mounting location, ensuring all application requirements are satisfied.

Fitted with two 15 W lamps, the Defender 30 attracts flies and uses a large capacity, fully grid marked glue board marked for HACCP compliance, making it an effective catcher unit for flying insects.

The Defender 30 can be wall mounted or suspended from the ceiling, allowing for unit placement precisely where needed.

Features and Benefits

- Quick and easy, tool free servicing
- Optional lamps for added safety in food production areas
- Wall mounted or ceiling suspended installation options
- Available as a glue board catcher
